

Monoclonal anti-human CD235a (Glycophorin A)/Biotin*

mAb name/Clone: A63-B/C2

Isotype: Mouse IgM

Immunogen: Neuraminidase treated human erythrocytes

CATALOG#: 122-030

QUANTITY: 100 µg

CONCENTRATION: 1.0 mg/ml

INFORMATION: Human CD235a (glycophorin A) is a sialoglycoprotein expressed early on the cell surface during erythropoiesis as pluripotent stem cells are recruited to differentiate into erythrocytes (1). CD235a (glycophorin A) is a useful marker to study the developmental biology of hematopoietic progenitor cells (2,3). Antibody A63-B/C2 reacts with an extracellular (peptide) domain of CD235a (glycophorin A).

STORAGE CONDITIONS: Store at 2 - 5°C. Freeze/thawing not recommended.

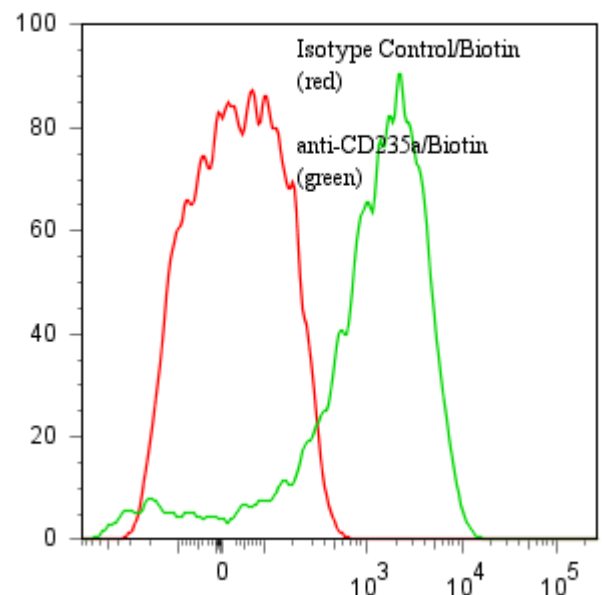

PRODUCT STABILITY: Product should retain activity for at least 12 months after shipping date when stored as recommended. Ship Date: _____

BUFFER: 50 mM Sodium Phosphate pH 7.5, 500 mM Potassium Chloride, 150mM NaCl, 5% Glycerol, 0.2% BSA, 0.04% NaN₃ (as a preservative).

PRODUCTION: Antibody from (low FBS containing) tissue culture supernatant was Protein A purified to >95% mouse immunoglobulin by SDS-PAGE (<1% bovine immunoglobulin), and reacted with NHS-Biotin. Unconjugated Biotin was removed from conjugate using a desalting column.

PERFORMANCE: Two µl per tube of freshly drawn heparinized human **whole blood** was washed and incubated 45 minutes on ice with 80 µl of anti-CD235a (Glycophorin A)/Biotin at **10 µg/ml**. Cells were washed twice and incubated with 2^o reagent Streptavidin/R-Phycoerythrin (Catalog #253-050), after which they were washed three times and fixed. To avoid clots, fixed Red blood cells were vortexed and drip-filtered through a 35 µ nylon mesh filter prior to analysis by FACS. Cells stained positive with a mean shift of **1.45 log₁₀** fluorescent units when compared to a Mouse IgM/Biotin negative control (Catalog #290-030). Binding was blocked when cells were pre incubated 10 minutes with 20 µl of 0.5 mg/ml anti-CD235a (Glycophorin A) antibody (Catalog #122-020).

Binding of anti-CD235a/Biotin +SA/PE to human Red Blood Cells
